

QUESTIONS & ANSWERS
RFP # 15-007-07
VARIOUS FIRE APPARATUS

I received the notice of the rebid on these items and downloaded the specifications. The last time we were looking at bidding, we submitted information about being an approved vendor for the County Government. After speaking with someone in the EOC department, I find that they have no record of anything from us. The person who submitted all the information for us previously has left our company. Can you tell me where we are in the submittal and approval stage? We are interested in submitting a bid, but we want to make sure that our bid will be considered once it is entered. If there is something else that I need to do with Shelby County, please let me know what it is so that I can review for completion.

We received three bids from the following bidders:

- G&W diesel Services
- Ferrara Fire Apparatus
- NAFECO

Would the person submitting the bid have submitted it in the name of one of the above companies?

The company was Sunbelt Fire, Inc. We did not enter a bid because we did not have paperwork approved by the county government. I need to make sure that our vendor information and our EOC information has been submitted and approved. I talked to Deborah in EOC and she does not have anything for our company that she can find. Do you know what our status is for bidding?

I spoke with Carolyn Griffin in EOC and your EOC number expired in May 2010. Please call Ms. Griffin at 901-222-1100 and ask her to forward you the documentation needed to receive an EOC number.

Also, as long as you have applied for an EOC number prior to the bid due date and time, we will accept your bid pending EOC approval.

I just want to confirm that Ferrara Fire Apparatus Inc. is a registered vender with your county and has the needed EOC Number in place.
I believe we went through this process on the May RFP...just want to make sure.

If you can, please confirm this by replying back to me with our vender number as well as our EOC number.

Ferrara does have a current EOC number, please see the below document.
